most Meta ads die in a week, these simple statics

LASTED

for months. here's what they share...

synced.graphics

META ADS

here's what the ones that last

SHARE

and how to spot it in yours...

synced.graphics

META ADS

one of our statics ran for 61 days...

WHAT ADS THAT LAST *share*

01 each ad does one job: stop, prove, or give a reason to buy now

02 you get it in one second

03 the page keeps the ad's promise

FORMAT 01 / 04

SAY THE PRICE *first*

"yes, it's $46. here's why." it answers the objection and filters out people who'd never buy...

→ "yes, it's $___. here's why."

FORMAT 02 / 04

THE REVIEW *screenshot*

a real review, cropped like a phone screenshot. it looks like something a friend sent you...

→ best line from a 5-star review becomes the headline

real words beat your best copywriting.

FORMAT 03 / 04

SHOW THE GIFT *in the picture*

a gift you can see is worth more than one in the small print. same for a bundle: show the per-month price...

✕ "free gift" in the caption

✓ the gift next to the product

FORMAT 04 / 04

UGLY ON PURPOSE *still works*

a plain notes-app screenshot doesn't look like an ad, so people read it...

→ three questions, three one-line answers

one job per ad, readable in

ONE SECOND

then send people to a page
that keeps the promise...
