most founders learn Meta ads

BACKWARDS

these are the 7 steps any strategist actually cares about...

synced.graphics

META ADS

start with your

NUMBERS

the ad is the last domino, not the first...

synced.graphics

META ADS

STEP 01 · NUMBERS

WHAT ONE ORDER *leaves you*

$15

EXAMPLE $40 PRODUCT

the most a customer can cost. price ÷ this = your break-even ROAS, about 2.7...

example numbers

STEP 02 · OFFER

THE OFFER SETS WHAT YOU CAN *pay*

—	1 jar at $40, you keep	**$15**
—	2 jars for $65, you keep	**$27**

example numbers

STEP 03 · TARGETING

THE AD *finds* THE AUDIENCE

keep targeting broad. different ads reach different people, so variety in the ads matters most...

STEPS 04 + 05 · STRUCTURE AND ADS

TWO CAMPAIGNS, *three angles*

01 test: 3 to 5 new ads a week

02 scale: winners only

03 angles: problem, proof, offer

STEP 06 · PAGE

THE PAGE KEEPS THE AD'S *promise*

same offer, same price, same words, on the first screen...

STEP 07 · RESULTS

THREE NUMBERS EVERY *Monday*

01 cost per purchase vs your $15 line

02 which ad got the sales

03 average order value (discount creep)

example numbers

numbers, offer, page, then the

ADS

work down the list, one step a week...
